

南京赛创电子进出口有限公司扬声器规格书

规格型号：YD40-8R

| 序号 | 内 容                            | 规 格                                                                      | 备 注 |
|----|--------------------------------|--------------------------------------------------------------------------|-----|
| 1  | 外径尺寸<br>Dimension              | $\Phi 40 \pm 0.2\text{mm}$                                               |     |
| 2  | 总高度<br>Highiy                  | $5.0 \pm 0.2\text{mm}$                                                   |     |
| 3  | 磁体尺寸<br>Magent                 | $12.5 \times 1.5\text{mm}$                                               |     |
| 4  | 额定阻抗<br>Impedance              | $8\Omega \pm 15\%$ At0.8kHz 1.0v                                         |     |
| 5  | 最大功率<br>Power Max              | 2W At1w/1m                                                               |     |
| 6  | 额定功率<br>Power Rating           | 1.5W At1w/1m                                                             |     |
| 7  | 谐振频率<br>The resonant frequency | $600 \pm 20\%$                                                           |     |
| 8  | 特性灵敏度<br>Sensitivity           | $91 \pm 3\text{dB}$                                                      |     |
| 9  | 纯音检听<br>Puer inspection        | 2.83V.                                                                   |     |
| 10 | 频率范围<br>Frequency response     | F0-3.5KHz $\pm 30\%$ /S.P.L.                                             |     |
| 11 | 耐热性<br>Heat resistance         | $50 \pm 2^{\circ}\text{C}$ 20-40%RH 16H<br>$20 \pm 5^{\circ}\text{C}$ 1H |     |
| 12 | 特征描述<br>Description            | Black                                                                    |     |
| 13 | 材质<br>Material                 | Metal                                                                    |     |
