

Product Name:MQ-7 CO Gas Sensor Module Carbon Monoxide
CO Gas Detector Sensor Module

- 1.High quality double panel design.
- 2.Power and TTL signal output indication.
- 3.Has better sensitive detection for carbon monoxide.
- 4.Has a long service life and reliable stability.
- 5.Suitable for the detection of carbon monoxide, gas, etc.
- 6.Module Size: $30 \times 19 \times 15\text{mm}$ / $1.18 \times 0.74 \times 0.59\text{"}$.
- 7.Input Voltage: DC5V.
- 8.Power Dissipation: 150mA.
- 9.DO Output: 0.1-5V.
- 10.AO Output: 0.1-0.3V.
- 11.Detectable Concentration: 10-1000ppmCO.

Package Included

Packing List	Qty
Carbon Monoxide CO Gas Detector Sensor Module	1
