

RELAY SHIELD-12V

## **4 Road/Channel Relay Module (with light coupling) 12V**

**Product Description:**

**This is a 12V 4-Channel Relay interface board**

**Be able to control various appliances, and other equipments with large current**

**It can be controlled directly by Micro-controller (FOR UNO , 8051, AVR, PIC, DSP, ARM, ARM, MSP430, TTL logic)**

**12V 4-Channel Relay interface board, and each one needs 50-60mA Driver Current**

**Equiped with high-current relay, AC250V 10A ; DC30V 10A**

**Indication LED's for Relay output status**

**Input IN1, IN2, IN3, IN4 signal low level effectively**

**VCC, GND power input end, can supply power alone**

**Support all single-chip control, industrial area, PLC control, household intelligent control**

**Application:**

**Supports all MCU control**

**The industrial field**

**PLC control**

**Smart home control**

**Size: 7.5\*5.6\*1.8cm/2.95\*2.2\*0.7"**
