

## Wholesale AMS1117-3.3 DC Buck Converter Voltage Regulator 4.75V-12V to 3.3V 800mA 4Pin LDO Step-Down Power Supply Module

### Specification:

Product Name: AMS1117-3.3 Power Supply Module

Module Size: 25x11mm

Input Voltage: DC 4.75V-12V

Output Voltage: 3.3V

Output Current: 800mA

Connection Mode: 4Pin, convenience for quick wire connecting.

VIN connect to input positive pole

OUT connect to output positive pole

2xGND connect to input/output negative pole

### Note:

1. Please do not work above the operating voltage , or it will be damaged easily.
2. The input voltage must be 1.5V or 2V higher than output voltage, otherwise it can not output enough power.
3. Please do not reverse polarity, or it will be damaged because of short circuit.
