

PL2303 PL2303HX USB to TTL

PL2303 PL2303HX Chip USB Converter Adapter Module To RS232 TTL USB-TTL 9 Upgrade Board STC Microcontroller For CAR Detection GPS

Description

Adopt imported controller RS232 TTL, which can stabilize the flash with high speed 500mA self recovery fuse for protection

Two data transmission indicator can monitor data transfer status in real time.

Reserve 3.3V and 5V pin interface, easy for DDWRT of different voltage system that need power.

The entire board is coated by high quality transparent heat-shrinkable sleeve, making the PCB in insulation state from outside, so that the board won't burnt down by material short cut.

Electrostatic package, insures the board will not be damaged before use.

Support WIN7 system.

Introduction

Dimention: about 50x15x7mm

Net weight: 5g

Package weight: 15g

Color: Blue (as the picture shows)
