

## 25V Voltage Detector Range 3 Terminal Sensor Module for Arduino

### Product Description

Widely used in motor speed detection, pulse counter, etc.  
Working with official MCU board.

- Country of Manufacture: CHINA; Material: Electric Parts
- Net Weight: 4g; Package Content: 1 x Voltage Sensor Module
- Main Color: Blue
- PCB Board Size: 27 x 14mm / 1.1" x 0.55"(L\*W)
- Max Voltage Range: 25V
