

**AT24C256 I2C Interface EEPROM Memory Module Onboard 8P-Chip Power Supply Indicator
Pull Up Resistor**

Onboard 8P-chip carrier, can support AT24C256 series chips.

Pin power supply, on-board power indicator.

on-board pull-up resistor for I2C communications required .

All pins leads out and be marked, the address input and the write-protect pin direct jumper settings.

PCB board size: 36.5 (mm) x12 (mm)
