

Product Name: 1M NTC Thermistor Accuracy Temperature Sensor
Thermistor NTC 10K 1% 3950 Waterproof Probe

Product Description:

1. Stainless steel sheath and waterproof.
2. Measurement range: -20 to 105 ° C.
3. Length of wire: 1 meter.
4. Size of probe: 5 x 25 mm.
5. Output: 2 wires.
6. Type: NTC 10k ± 1% 3950.
7. Measure environmental temperatures using ADC and this 10k NTC LINK.
8. Resistance to temperature conversion table LINK.
9. B-constant : 3380K +/- 1%.
10. Typical Dissipation Constant 5mW/ ° C.
11. Probe insulation: >100MΩ.
12. Peak Voltage sustain time: 2 seconds, AC1800V 1mA 2 seconds.
13. Stress sustain: 9.8N (1kgF) for 1 minute no deformation.
