

Product Name:38KHz Infrared IR Receiver Sensor Module Infrared

Product Description:

- 1.1838 remote control receiver, high sensitivity.
- 2.Use for Arduino Robot.
- 3.Operating voltage: 5V.
- 4.Output type: digital output.
- 5.Two fixing holes are provided for easy installation.
- 6.Aperture: 3.1 mm.
- 7.With data indicator.
- 8.PCB size: 23.5 * 21.5mm.
- 9.DAT: digital output interface.
- 10.VCC: 5V +.
- 11.GND: 5V -.
