

Mini N20 DC Gear Motor 5V For Smart Robot Car

Product Description

- Type:Micro Motor
- Construction:Permanent Magnet
- Speed(RPM):500 rpm
- Continuous Current(A):0.125A
- Efficiency:68%
- Rated Voltage:6V
- Main Gear:Stainless Steel Hardened
- Axial Play:0.05-0.5mm
- Operating Temperature Range:-20°C --+50°C

PRODUCT DETAILS

1. Rated Voltage: 6V
- 2.Speed:10-2000RPM
3. Shaft dimension can be customized
4. Gearbox length: 9mm, 12mm
5. Motor diameter with 12mm
6. Direction: CW CCW
7. Long life, low noise
- 8.Can be equipped with encoder
- 9.Application:Robot, Home Appliance, Door Lock etc
