

Product Name: Touch Switch Button TTP226 8 Channel Digital Capacitive Touch Switch Sensor Module

Product Description:

1. On-board TTP226 capacitive 8-button touch-sensing IC.
2. Onboard 8-channel level status indicator.
3. Operating voltage: 2.4V-5.5V.
4. The module can set the output mode, key output mode, maximum output time and fast / low power selection.
5. PCB board size: 47.5 (mm) x46 (mm).
