

Product Name:Capacitive Switch TTP229 16 Channel Digital
Capacitive Touch Sensor Module

Product Description:

1. 16-key board TTP229 capacitive touch sensor IC.
2. Onboard power indicator.
3. Working voltage: 2.4V-5.5V.
4. The module can be set to output mode, the key output mode, the longest time and fast output / low power options.
5. PCB board size: 49(mm) x64.5 (mm).

Package Included
