

**Product Name:** Reed Sensor Module Magnetic Reed Switch Module  
For Arduino

**Product Description:**

1. Analog magnetic sensor module and a digital interface, built-in 13 LED build a simple circuit to produce a magnetic flash.
2. Makers. 13 comes with digital interfaces of the LED.
3. The analog magnetic sensor connected to the power board analog for ARDUINO 5 Interfaces, when analog magnetic sensor to a signal, LED lights, otherwise the lights out.
4. 44 x 18 x 15 mm (L x B x H).
5. Inverse Digitalausgang.
