

SEED-304090012 Datasheet

PRODUCT DETAILS

This product is retired, please consider our [LED selection](#) as your alternative choice.

Illustration above indicating a 8mm RGB LED (Red Green Blue) with four pins. Triple output one for each color with a common anode. This LED can be used for three status indicators or pulse width modulates all three and gets mixed colors!

Please note that this is a pack included 10 8mm RGB LEDs.
