

SEED-104990624

Features

- Ultra-thin micro-LED fiber: 0.2~1.0mm thick.
- 360 degree luminous
- Blue LED and light up by DC2.6~3V@3mA

Description

Do you want to become colored and dazzling during the party time? Glow Silk LED will help you. The GLOSILQ LED Fiber is not a truly optical fiber, it has the shape of optical fiber but uses LEDs for lighting. It is used for decorating clothing, shoes, bags, and hats.

You can simply switch the LED fiber on the battery for power supply. Notice that the longer wire is positive.

Specification

- Supply Voltage: 2.6~3V DC
- Supply current: 3mA
- Pitch: 10mm
- Length: 1 m
