

SEED-101020084

MINI_MOTOR_V1.0

PRODUCT DETAILS

Feature

- Compact size for easy deployment
- Stable and durable
- Atmel®AVR® 8-bit Microcontroller
- Built-in programmable microcontroller that uses Arduino IDE
- Changeable code to drive servo motors instead of DC motor

Specification

- Input Voltage: 5V
- Connector: 4 Pin Buckled Grove interface for input signal; JST 2.0 interface for the DC motor
- Dimension: 20mm x 20mm

Applications

- Motors
- Plotters
- 3d printers
- LEDs
- Desktop printers

Part list

1x Motor Driver board

1x Grove cable
