

SEEED-110991464

re_computer case: Vesa Mounting Bracket

PRODUCT DETAILS

Key Features

- Convert the re_computer case to the Standard Vesa Mounting Holes Pattern.
- Mount the re_computer case to the back of the monitor.
- Clean desktop set-up with re_computer case and popular SBCs.

Description

This is the **re_computer** case: Vesa Mounting Bracket that allows installing the **re_computer** case to the back of the monitor using the standard Vesa Mounting Holes. This completes the [ODYSSEY-X86J4105](#) with a [re_computer case](#) desktop set-up, with the device installed to the back of the monitor and so keeping the desk clean.

Scenario Applications

At Seeed, you can also design your solution all in one page where you choose the desired SBC, any compatible mission board (HATs, expansions) that you want, I/O modules, and nicely place them in the suitable enclosures/cases such as [re_computer case](#). Rest assured, as we have tested full compatibility for all of the products listed on the page. Try it now [here](#) and save you time to find hardware compatibility!

Part List

- re_computer case: Vesa Mounting Bracket x 1
- Screws x 5
- Screw Pillars x 5
- Gasket x 5
