

SEEED-110080001

Seeed Studio mbed Developer Kit - Robotics

PRODUCT DETAILS

This kit is an official tool kit for ARM mbed Training Program in APAC. The kit is built around Arch Link, which is an mbed enabled development board based on Nordic nRF51822 and WIZnet W5500 ethernet interface. Owning to its Arduino form factor and Grove connectors on board, we bundled it with other two specially selected Grove module, the Grove - Servo and the Grove - Temperature&Humidity Sensor Pro, to create an extremely easy way to build robotics with BLE(bluetooth low energy) control.

Features

- mbed enabled developer kit
- Specially selected Grove modules
- Extremely easy way for robotics design

Part List

- 1x <u>Arch Link</u>
- 1x <u>Grove Servo</u>
- 1x <u>Grove Temperature & Humidity Sensor Pro</u>
