Wio Link Starter Kit   SKU 110020051

This kit is aimed at starters. The functional modules included in this kit are selected especially for a beginner which are frequently required modules, and very cost-effective. The most amazing part of this kit is the Wio Link development board which can be utilized for various devices: without much programming skill required. All the actions you want your modules performed and the flashing-code operation to Wio Link could be completed with taps in a mobile app. And you can send instructions to your devices over Internet at anywhere. So Wio Link will be a perfect utility to make things around smarter for everyone. Now let's enjoy being a maker.

Features
- Include common frequently-used environment-monitoring functional modules
- Grove port interfaced, more practical function and less work
- Completely easy to make things around you smarter and add fun to daily life.
- Cost-effectiv
