

PERFWIPE ESD Parts Bins Specification

Descriptions:

ESD Parts Bins are manufacture from conductive plastic material PP .

Ideal for use in ESD area and electronically sensitive products workstations.

ESD Parts Bins is permanently molded in conductive material for use in ESD area and electronically sensitive workstations.

Combine part bins with ESD safe metals storage system to meet your work in process requirement.

Feature:

Conductive materials

Smooth gravity flow interior optimizes parts accessibility.

Bins hand on most louvered panels or rails.

Solid covers available to further protect parts .

Special passage resistance/surface resistance: $10^6 \sim 10^{10}$ ohm/cm

Application:

ESD parts bins provide effective protection for handling PC boards and electronic components in assembly, packaging, storage and processing areas.

Order Informations:
