

PERFWIPE ESD Wireless Wrist Strap Specification

Descriptions:

Antistatic Clipboards of Standard office clipboards are construction with ESD PP material, have the potential to inadvertently cause static damage when used near ESD sensitive devices; they are an often over-looked piece of equipment in static controlled workstations.

These durable, high quality, permanently antistatic PVC clipboards features ESD safe markings which clearly identify them as compliant for static controlled areas.

The clipboards are compatible with A4 sized documents and feature an inbuilt pen holder, and a reliable spring loaded metal clip to securely hold your papers in place.

Features:

Compatible with A4 sized documents

High quality spring loaded metal clip
